Gender pay report 2023

our commitment to diversity and equality

At mydentist, we take our commitments to diversity and equality seriously. We want to employ, attract and reward the best people, irrespective of gender, age, race, background, sexuality, or any other factor.

We are confident that every person who works at mydentist is paid equally for the work they do. We have a robust set of policies and procedures to ensure this happens and we do not tolerate unfair treatment of any kind.

Our published gender pay gap reflects the fact that the vast majority of our dental practices, which typically pay lower hourly rates, employ more women, whereas our Support Centre, which includes our most senior roles, is more evenly split between men and women.

We constantly review our policies and procedures and implement appropriate actions to help make positive changes where required, and we are determined to continue improving the diversity of our workforce at all levels to properly reflect the culture of our business.

mydentist is the trading name of the IDH group of companies, which includes Petrie Tucker and Partners Limited (registered in Scotland with company number SC030254). Petrie Tucker is the employing entity for the majority of our employees. I confirm the information and statistics set out above are accurate and relate to employees of Petrie Tucker with reference to the snapshot date of 5 April 2022.

2023 gender pay gap statistics

Gender pay report 2023

The majority of staff who work at mydentist work at one of our local dentistry practices. More than 94% of these staff are women.

On average, in our practices, our **gender pay gap is 8.78%**.

Our Support Centre includes our most senior roles across the company and is more evenly split between men and women. These roles typically attract a slightly higher rate of pay.

Women make up 44% of our 100 highest paid roles, and 50% of our Clinical Directors, the most senior clinical roles in mydentist, are women.

proportion of men and women in each pay quartile

Gender pay report 2023

Women are the largest group of employees in all quartiles of pay, and 96.40% of people in our second highest earning quartile are women.

As a result of mydentist's structure, and the fact that women are more likely to work at our local practices which typically attract lower hourly rates, women have a lower representation in the highest earning quartile than in other quartiles.

	Lower quartile	Lower middle quartile	Upper middle quartile	Upper quartile
% female	95.79%	96.31%	96.40%	80.36%
% male	4.21%	3.69%	3.60%	19.64%
